Administrative Fund
(014-9145)

There are actually three different types of billings that go out to each member district to support the Administrative Fund. They are the:

1. annual fee,
2. estimated excess costs, and
3. excess cost.

Annual Fee – Each participating member district pays an annual fee of \$5,000 for operating costs through semi-annual invoices in July and January. This fee currently supports a vocational director, coordinator, technology personnel, career assessment teacher and two secretaries. In addition, to personnel charges, Findlay City Schools, acting as fiscal agent, charges against the account one percent (1%) per year of the total Millstream appropriation measure.

Estimated Excess Costs – Estimated excess costs for the next fiscal year are calculated once the prior fiscal year is closed. These costs are split between two billings – one in July and one in January. The formula for the estimated costs is:

- $\text{Prior FY expenditures} + \text{estimated increase/decrease} - \text{annual fee per school district of } \$5,000 \times 15 (\$75,000) / \text{prior year's enrollment} = \text{estimated excess cost per student}$
- $\text{Estimated excess cost per student} \times \text{district's prior October's enrollment} / \text{two billing payments} = \text{semi-annual estimated excess costs.}$

Actual Excess Costs – Member districts are responsible for any shortage in revenue for the Administrative Fund at fiscal year end. A positive year-end balance will result in a credit to each member district. At the close of the fiscal year, costs for administration of the program are calculated and billed during the month of July. The formula for the calculation is:

- $\text{Total expenditures} - \text{the annual fee per school district } \$5,000 \times 15 (\$75,000) - \text{advances out} / \text{by total number of students} = \text{excess cost per student}$
- $\text{Excess cost per student} \times \text{district's October enrollment} - \text{estimated excess cost payments by district} = \text{excess cost due (or credit)}$

The calculation can be reviewed by referring to the spreadsheet on the following page.

Rental Fees -- Beginning with the 2010-11 school year, all participating districts began to annually pay rent for Millstream facilities based on the pupil enrollment of the upper four grades of each high school, including Findlay. The rent was \$25 per pupil for 2010-11. It then rose to \$50 per pupil for 2012-13 once the new building was constructed, and then became \$75 per pupil in 2013-14. These revenues are not part of the Administrative Fund. They are placed into the mandated 034 maintenance fund for OSFC buildings.

Capital Outlay Fund
(014-9146)

Each participating member district, except for the fiscal agent, annually provides for capital funds for equipment and facilities at a rate of \$25 per pupil enrolled in the upper four grades of each high school. After certification of October enrollment numbers, the cost is calculated and this charge is divided between two payments in November and January.

Enrollment numbers used are obtained by phoning member district's personnel for a head count. Findlay City Schools uses students coded as "10" on the Agg 7 EMIS head count report.

General Fund Excess Costs
(001-1300 & 001-2214)

General fund money is expended by Findlay City Schools to support vocational programs offered by the district. At the end of the fiscal year, the cost of each program is calculated. Millstream member districts are then invoiced “excess costs” for students residing in their district who are attending vocational programs at Findlay. There are three factors that play into the calculation of excess costs. They are:

1. student enrollment
2. program costs, and
3. reimbursement from the state through foundation payments.

1. Student Enrollment

The number of students enrolled during the first full week of October is used in calculation excess costs. Therefore, all out-of-district students enrolled during the official enrollment week in October are susceptible to excess costs. Students enrolling into the program after this week are not assessed excess costs. The cost of a program can vary widely from year to year depending on the number of students in a program. This factor is one of the biggest reasons for increase in program costs.

For example, program costs of \$60,000 for 15 students = \$4,000 cost per student and the same \$60,000 for 10 students = \$6,000 cost per student. By losing five (5) students in the program, costs per student increased \$2,000.

2. Program Costs

All expenses are general fund expenditures. Salaries, benefits, and contracted services, as well as supplies and materials, for each program are tracked by a special cost center that links the account to the program. All maintenance, operation, and utilities expenses are calculated on a square footage basis and evenly distributed to each program.

- 100 Salaries – include certificated staff and classified aides.
- 200 Benefits – includes retirement, Medicare, medical, dental/vision, life and worker’s comp.
- 400 Contracted Services – include professional travel/meeting, telephone, and contracts.
- 500 Supplies – include textbooks and program supplies not classified as capital outlay.
- 600 Equipment – include furniture and computer equipment.

3. State Funding

Effective with the 1998-99 school year, unit funding was eliminated and per pupil funding was instituted. Enrollment information provided to the state through EMIS in October is reflected in adjustments to the SF3 foundation payments. Line 24B Disclosure Items: Voc Ed, and Line 22E Other Adjustments reflect the payments for vocational programs.

Weighted Cost Funds Certification (WCF) – These funds are restricted and must be spent or encumbered by June 30. At least seventy-five percent of such funds must be spent on curriculum development and purchases, student assessment, instructional resources and supplies, vocational student organization dues or expenses, work-site learning experience costs, home and agency linkages costs, extended vocational programming, curriculum specific instructional equipment purchase or leases, professional development, industry-based program certification, student credentialing, and other unique costs directly associated to vocational education programs excluding indirect and administrative costs.
